Education

Birla Institute of Technology and Science, Pilani - Pilani Campus Rajasthan, India
Bachelor of Technology - Mechanical Engineering *Aug 2017 - Jul 2021*

Skills

Product & Program: Roadmapping, PRDs, Discovery, Prioritization, Stakeholder Management, Agile/Scrum, A/B Testing, Product Management, Project Management, Program Management

Data & Analytics: SQL, Mixpanel, Product Analytics, Data Analysis, Blitzllama, Kibana

Technical & Tools: Python, JavaScript, Java, Postman, Jira, Figma, Lovable, Cursor, Zapier, RAG, LLM Applications

Experience

Handshake AI Whitefield, Bangalore
Strategic Projects Associate *Mar 2026 - May 2026*

- Drove strategic execution initiatives that contributed to expanding a key enterprise account from $10M to $24M in annual revenue, supporting scalable growth across AI operations programs.
- Led cross-functional coordination across 6+ projects with frontier AI research labs, managing data annotation pipelines, workflow optimization, and quality assurance for advanced model training and evaluation initiatives.
- Partnered with operations, product, and client stakeholders to improve delivery efficiency, resolve execution bottlenecks, and maintain high-quality outputs across multiple concurrent AI programs.

TechWire Studio Bangalore, India
Program Manager *Dec 2023 - Feb 2026*

- Led weekly code reviews and maintained SOPs across a 15-member React and Node.js engineering team, delivering high-quality web solutions for clients across e-commerce, media and travel domains.
- Led the delivery of an AI-driven inventory platform for Xceed Electronics, enabling real-time tracking of 8,000+ SKUs across the supply chain and leveraging RAG-powered semantic search to accelerate part lookup.
- Played a key role in scaling monthly recurring revenue from 6L to 10L by tightening operational processes, improving delivery quality, and driving higher client retention and expansion.

UrbanPiper Bangalore, India
Technical Project Manager *Jun 2022 - Dec 2023*

- Onboarded and managed partnerships with 10+ food aggregators, helping them deploy custom features across India, EU, MENA and LATAM regions, leading to a 15% MRR increase as part of the growth team.
- Led the development and deployment of PRISM, an automated menu moderation service that reduced client support requests by 35%, improved customer satisfaction, and significantly increased support team efficiency.
- Performed end-to-end API testing, debugging, and collaborated closely with aggregator teams and restaurant partners to ensure seamless integration and reliable data exchange.

Licious Bangalore, India
Supply Chain Analyst *Dec 2021 - May 2022*

- Optimized supply chain operations for a 300-employee Processing Center in Hoskote, Bangalore.
- Monitored sourcing & procurement of 30 SKUs across 6 suppliers, collaborating with QA team.
- Increased chicken assembly line yield by 5-6% in 3 months, driving $1M annual revenue growth.

Software Development Engineer - 1 *Jul 2021 - Dec 2021*

- Automated manual forecasting processes as part of a 7-member engineering team.
- Deployed 8 APIs using Spring Boot, SQL, and REST architecture.
- Expanded demand forecasting dataset from 4 weeks to 1 year, optimizing accuracy and insights.

Projects

QOSMIC Space: Founder's Office Challenge *Case study*

- Built a multi-disciplinary Founder's Office submission spanning a knowledge-vault RAG layer, a vendor procurement system, and a revenue model. Shipped three working tools alongside it, including a Python RAG and a live satellite pass-planner web app.

Face Redaction Tool: Live on Hugging Face Spaces *Repository*

- Built and shipped a privacy tool that strips facial PII from images for AI training, using YuNet detection with landmark-driven, angle-aware bar placement so the redaction holds across multiple and steeply tilted faces.

WhatsApp Order Notifications: BusinessonBot *PRD*

- Designed the end-to-end customer journey and technical architecture for Shopify order-status updates over WhatsApp, defining the access scopes, webhooks, message templates, and per-conversation cost model.
